Overhead Concealed Closers

D200 & D200-SA Series

- Three control valves: Closing speed, latching speed and back check, fully adjustable after installation.
- D200-SA Series - 5-3/4" Short "A" Arm supplied for smaller top rail applications

D300 & D500

- Two control valves: Closing speed and latching speed, fully adjustable after installation.
- D300 Series - Grade 2
- D500 Series - ANSI 156.4 Grade 1

44CI Series Surface Closers - Grade 1

- Non-Sized Adjustable 1 Through 6; Standard with Back Check
- Universal Application for Regular Arm, Top Jamb, or Parallel Arm Mounting
- Hold-open arms are adjustable for holding from 85° to 180°

850 & 880 Series Surface Closers

- Standard: 851, 852, 853, 854 and 855
- Back-Check: 883, 884 and 885
- Two Adjustment Valves: Closing and Latching speeds controlled by separate regulating valves, adjustable after installation
- Series 880 has additional adjustable Back-Check function controlled by a separate regulating valve, adjustable after installation.

5000-TP Series Surface Closers - Grade 1

- Adjustable spring power for a range of sizes. 1-6 adjustable backcheck and delay action, adjustable after installation.
- Two Adjustment Valves: Closing and Latching speeds controlled by separate regulating valves, adjustable after installation
- Universal Application for Regular Arm, Top Jamb, or Parallel Arm Mounting
- Back-Check and Delay Adjustment Valve

8000-TP Series Surface Closers - Grade 1 • Fire Rated

- Model 8051-TP Standard with Sweep, Latching, and Back-Check
- Model 8052-TP Standard with Sweep, Latching, and Delayed Action
- Adjustable spring power for a range of sizes. 1-6 adjustable backcheck and delay action, adjustable after installation.°
- Hold-open arms are adjustable for holding from 90° to 180°
- Universal Application for Regular Arm, Top Jamb, or Parallel Arm Mounting

9000-TP Series Surface Closers - Grade 1

- Model 9001-TP: Adjustable spring power for a range of sizes 1-6 adjustable backcheck and delay action, adjustable after installation.
- Model 9003-TP: ADA (Handicap) multi-sized closer with adjustable Spring Power, 5 lb. opening force (Interior door)
- Two Adjustment Valves: Closing and Latching speeds controlled by separate regulating valves, adjustable after installation
- Hold-open arms are adjustable for holding from 90° to 180°
- Back-Check and Delay Adjustment Valve
- Universal Application for Regular Arm, Top Jamb, or Parallel Arm Mounting
